As with most organic compounds, fire is possible at elevated temperatures or by contact with an ignition source.

Extinguishing Media:

Use media such as water spray, carbon dioxide, dry chemical powder or appropriate foam.

Protective equipment:

Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

Specific hazard(s):

Emit toxic fumes under fire conditions.

If substance is an organic solid, fine dust dispersed in air in sufficient concentrations in the presence of an ignition source is a potential for a dust explosion hazard.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

General Method: Isolate and post spill area. Wear protective clothing and personal protective equipment. Keep unprotected persons and animals out of the area. Keep material out of lakes, streams, ponds and sewer drains. Do not walk through spilled material. Avoid breathing vapors and skin contact. Remove sources of ignition if combustible or flammable vapors may be present and ventilate area.

Large Spilled: Large spills should be collected in an appropriate container or absorb with an inert material (e.g., vermiculite, dry sand, earth), and place in a chemical waste container. Do not use combustible materials, such as saw dust. Do not flush to sewer! If a leak or spill has not ignited, use water spray to disperse the vapors, to protect personnel attempting to stop leak, and to flush spills away from exposures.

Clean& Neutralize: To clean and neutralize spill area, tools and equipment, wash with a suitable solution of caustic or soda ash. Follow this by washing with a strong soap and water solution. Absorb, as above, any excess liquid and add to the drums of waste already collected. Repeat if necessary.

SECTION 7 – HANDLING AND STORAGE**Handling:****User exposure:**

Do not breathe vapor. Do not get in eyes, on skin, on clothing.

Storage: Store away from incompatible substances. Keep tightly closed and store in a cool dry place. Do not store or consume food, drink or tobacco in areas where they may become contaminated with this material.

Waste Disposal: The substance should be disposed of in accordance with all federal, state, and local regulations. For assistance, contact the District Director of the Environmental Protection Agency.

SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering controls:

Safety shower and eye bath. Use only in a chemical fume hood.

Personal protective equipment:

Respiratory: Government approved respirator.

Hand: Compatible chemical-resistant gloves.

Eye: Chemical safety goggles.

General hygiene measures:

Wash contaminated clothing before reuse. Discard contaminated shoes. Wash thoroughly after handling.
